## **LaGrange Fire Department Responds to Structure Fire on Revis Street**

***LaGrange, GA, November 1, 2021*** – On Monday, November 1<sup>st</sup> at 5:16 a.m., the LaGrange Fire Department responded to 406 Revis Street for a reported structure fire.

The first units to arrive on scene reported light smoke showing from the front of the residence. Upon entry into the residence, fire personnel encountered moderate smoke conditions inside the den area of the home and discovered that a small chair had caught fire but burned itself out before fire crews made entry. Crews searched the residence for occupants, but everyone had evacuated before crews arrived.

The cause is listed as combustibles too close to a portable space heater. Closed doors inside the residence prevented the spread of smoke and other products of combustion throughout the residence.

The LaGrange Fire Department would like to remind the community to have at least one working smoke detector in their home and to keep all doors closed to prevent the spread of smoke and fire throughout the

home. Please read safety directions on all portable space heaters and to keep combustibles at least 6 feet from a heating device.
